**SUPPLEMENTARY INFORMATION:**

Title: Importation of Hass Avocados From Peru.

OMB Control Number: 0579-0355.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in “Subpart—Fruits and Vegetables” (7 CFR 319.56-1 through 319.56-72).

Section 319.56-50 of the regulations provides the requirements for the importation of Hass avocados from Peru into the continental United States. The regulations require the use of

information collection activities, including phytosanitary certificates, trust funds, workplans, recordkeeping, production site registration, monitoring and oversight of registered production sites, packinghouse registration, survey protocols, box markings, and shipping documents with the official registration number of the place of production and identification of packing shed.

When comparing the regulations to the information collection activities that were previously approved, we found that production site and packinghouse registration, box markings, and the time it takes for businesses to escort inspectors for the required monitoring were omitted from the previous collection. We also adjusted the burden hours for the trust fund and workplan activities to more accurately capture the time needed for these activities. Lastly, we increased the estimated annual number of respondents from two to eight to reflect an increase in trade and additional companies participating in the export of Hass avocados from Peru into the continental United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0026 hours per response.

Respondents: National plant protection organization officials of Peru and growers, shippers, and importers of Hass avocados from Peru.

Estimated annual number of respondents: 8.

Estimated annual number of responses per respondent: 50,127.

Estimated annual number of responses: 401,019.

Estimated total annual burden on respondents: 1,048 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of June 2015 .
